

Navigation Data Alert 1835

TO: Users of Garmin Navigation and Jeppesen NavData databases
DATE: June 15, 2018
CYCLES: All
SUBJECT: Position Accuracy of Rwy 17/35 at KAXX (Angel Fire, NM)

AFFECTED PRODUCTS

All Garmin aviation products and systems using a Garmin Navigation or Jeppesen NavData database are affected.

DESCRIPTION

Although the position of runway 17/35 KAXX (Angel Fire, NM) in the database matches the official FAA information and Garmin's aviation data suppliers, Garmin believes the position of runway 17/35 is not accurate. This may result in incorrect performance of SurfaceWatch™ functionality, approach operations to the runway, and other functions which depend on the accurate placement of the runway position.

The FAA has been notified of this situation.

PILOT ACTION

Until further notice, use extreme caution for any operations at KAXX.

RESOLUTION

When this issue is resolved or situation changes, an update will be provided to this notice.

WE STRONGLY URGE THIS INFORMATION BE MADE AVAILABLE TO APPROPRIATE CREW MEMBERS OR CUSTOMERS IMMEDIATELY!

Garmin requests that the flight crew report any observed discrepancies related to database information. These discrepancies could come in the form of an incorrect procedure, incorrectly identified terrain, obstacles, fixes, or any other displayed item used for navigation or communication in the air or on the ground. Go to fly.garmin.com and select "[Aviation Data Error Report](#)."
