

IFR/VFR Charts Data Alert 24015

TO: Users of all Garmin aviation products using the United States and Central America IFR/VFR Charts database

DATE: February 20, 2024

CYCLE: 2401

SUBJECT: Degraded VFR chart quality for portions of the Charlotte, Atlanta, and Jacksonville sectionals

PRODUCT AFFECTED

The United States and Central America IFR/VFR Charts databases for cycle 2401 are affected.

DESCRIPTION

The VFR chart quality is degraded for portions of the Charlotte, Atlanta and Jacksonville sectionals in the United States and Central America IFR/VFR Charts database for cycle 2401.

PILOT ACTION

Exercise caution when referencing the Central America or United States IFR/VFR Charts database for the coverage areas of the Charlotte, Atlanta, and Jacksonville sectionals.

RESOLUTION

Image quality for affected areas will be corrected in the 2402 cycle of the United States and Central America IFR/VFR Charts databases. Cycle 2402 IFR/VFR Charts databases are effective February 22, 2024 and will be available February 20, 2024.

Garmin requests the flight crew report any observed discrepancies related to database information. These discrepancies could come in the form of an incorrect procedure, incorrectly identified terrain, obstacles, fixes, or any other displayed item used for navigation or communication in the air or on the ground. Go to [FlyGarmin.com](https://www.flygarmin.com) and select "Aviation Data Error Report."
